

**HIMROO SHAWLS & BEDSHEETS
CATALOG**

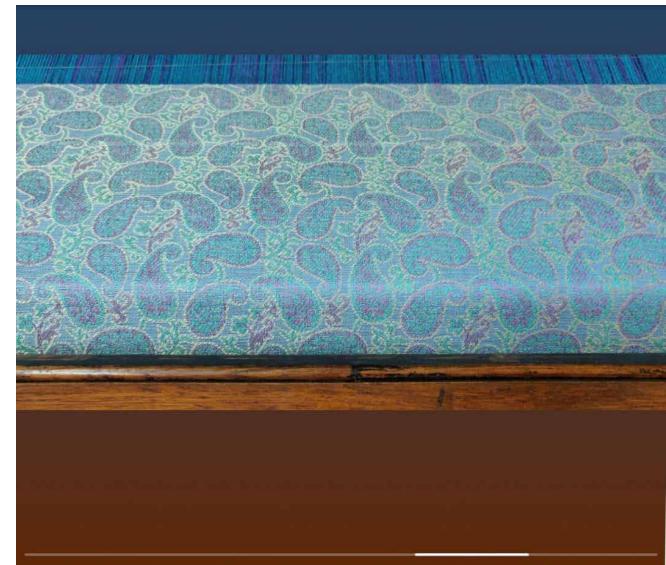

Himroo is a luxurious, historically rich fabric from Aurangabad, India, woven from silk and cotton, known for its Persian-inspired geometric and floral patterns, serving as an affordable alternative to royal gold/silver brocades (kum-khwab). Its name comes from the Persian *hum-ruh* ("similar"), reflecting its origins when the Delhi Sultan shifted his capital to Daulatabad (Aurangabad) in the 14th century, introducing Persian weaving techniques that blended with local materials.
